

### **3. BOMB THREAT AWARENESS COURSE**

Bomb Threat has become a harsh reality in today's world especially after the devastating incident of September 11, 2001. The numerous terrorist activities around the world and particularly in our country have resulted in a quantum change to our way of life and our way of doing business. There had always been, in the past, a small potential bomb threat from obscure, politically inspired action groups and unstable individuals with an axe to grind. That small threat has now evolved into a serious threat and every citizen must be aware as to how to handle a situation concerning a bomb threat.

If there is one point that cannot be overemphasized, it is the value of being prepared. Do not allow a bomb incident to catch you by surprise. By undergoing a bomb threat awareness programme you can reduce the potential for personal injury and property damage.

#### **COURSE OBJECTIVE**

This course will teach you the fundamentals of Bomb Threat –Evaluation, Evacuation and Search Procedures.
